

INTEGRATED MANAGEMENT SYSTEMS POLICY

Skyriders are industrial rope access specialists that provide inspections, non-destructive testing, confined space services, specialised painting services, concrete rehabilitation, bolting, rigging, internal and external Remote Piloted Aircraft Systems (RPAS) structural inspections and aerial surveys, and innovative work at heights solutions for clients in all economic sectors.

As Top Management of Skyriders we are committed to:

- Implementing an integrated system aligned with ISO 9001 and ISO 45001.
- Compliance with relevant International, National, Regional and Local legislation and any other requirements that may impact on how we do our business.
- Delivering quality products and services that focus on meeting the Client's needs and where possible exceeding these needs, by implementing a risk-based approach.
- Protecting the environment in which we operate by prevention of pollution, and consideration for the interests of our stakeholders.
- Visible leadership that demonstrates a commitment to and takes accountability for achieving zero harm, through informed decision-making where SHEQ requirements are integral to the process.
- Providing reliable, safe, healthy and sustainable working conditions in order to prevent work-related injuries or ill health.
- Continually improve our integrated system to eliminate hazards and reduce the company risk profile on our journey in achieving our SHEQ goals.

Operations Manager

Financial Manager

Employee Representative

- Establish the system with participation and consultation, when needed, with worker representatives.
- Ensure that workers are not exposed to unsafe or unhealthy conditions at the Client workplace by relating their concerns directly to the Client for resolution.

We will achieve these fundamentals through:

- Identifying and assessing risks associated with our operations and service quality to our customers. Taking reasonable actions to reduce these risks thus not adversely affecting the business of our customers
- Continually improving SHEQ performance by monitoring, auditing and verifying our SHEQ practices and compliance to legal, integrated management system and customer requirements.
- Translating our Skyriders Group Strategic Objectives and Targets into objectives and targets geared for SHEQ excellence.
- Equipping our leaders to competently lead SHEQ performance and create a culture that promotes people engagement and participation.
